## No. 40

**AN ORDINANCE**—Signifying the desire of the City of Pittsburgh to become a member of the Allegheny County Sanitary Authority; authorizing the publication of the required Notice and the filing with the Secretary of the Commonwealth of the required Application pursuant to the Municipality Authorities Act of 1945, as amended; and appointing the City's three members of the Board of such Authority.

Whereas, The Allegheny County Sanitary Authority, hereinafter sometimes called the "Sanitary Authority," was duly organized by the County of Allegheny in March, 1946, under the Municipality Authorities Act of 1945; and,

Whereas, The Sanitary Authority was organized for the purpose of carrying into effect a County-wide project in relief of solution, by various cities, borough and townships located within Allegheny County (including the City of Pittsburgh), of the problem presented to them by the demand of the Commonwealth of Pennsylvania for a prompt abatement of the pollution of the waters of the Commonwealth caused by the discharge of their sewage thereinto; and,

Whereas, The City of Pittsburgh, sometimes hereinafter called the "City," provided the chief financial support to the Sanitary Authority for several years of extensive studies and reports on behalf of all the affected municipalities, by loans totaling \$500,000; and,

Whereas, In 1949, following rejection by the municipalities outside Pittsburgh of the Sanitary Authority's original proposal for a single sewage disposal system to serve all of the municipalities in Allegheny County and

the cities of New Kensington and Arnold in Westmoreland County, the City of Pittsburgh engaged the Sanitary Authority to prepare construction plans and specifications for a reduced system (termed "Project Z") to serve Pittsburgh and 59 (later increased to 63) surrounding municipalities and loaned the Sanitary Authority the entire \$2,000,000 cost of such plans; and,

Whereas, In consideration thereof all of the municipalities included in Project Z—in separate long-term sewage service agreements with the City and the Sanitary Authority—agreed that the City of Pittsburgh shall have the right to designate the agency (termed the "Sewage Agency") which will construct and operate the Project Z system (termed the "Sewage Disposal System") following approval by the Pennsylvania Sanitary Water Board of the plans to be prepared by the Sanitary Authority; and,

Whereas, In a long-term sewage service agreement which the City and the Sanitary Authority entered into with the Boroughs of Blawnox and Verona, the Townships of O'Hara and Penn, and the Allegheny County Workhouse, the City also reserved the right to have its designated Sewage Agency construct and operate the so-called Upper Allegheny System, consisting of intercepting sewers connecting with the Sewage Disposal System; and,

Whereas, The Sanitary Authority has completed the plans for the Sewage Disposal System, and the Pennsylvania Sanitary Water Board has approved such plans and has ordered construction to proceed forthwith and be completed by June 30, 1958; and,

Whereas, The City intends to designate the Sanitary Authority to be the Sewage Agency but will not do so unless and until the City becomes a member of the Sanitary Authority with the right to appoint a majority of the members of its Board, new appointees will be non-salaried; Now, Therefore,

*The Council of the City of Pittsburgh hereby enacts as follows:*

Section 1. That the City of Pittsburgh hereby signifies its desire to be-

come a member of the Allegheny County Sanitary Authority, a body corporate and politic of the Commonwealth of Pennsylvania organized in March, 1946, by the County of Allegheny, under the Municipality Authorities Act of 1945 and existing under the provisions of said Act as amended, with the right to appoint three (3) of the five (5) members of its Board.

Section 2. If the said Allegheny County Sanitary Authority shall by resolution express its consent to such joining, the City Solicitor is hereby directed to cause to be published in the Pittsburgh Legal Journal and one Pittsburgh daily newspaper a notice of this ordinance, as required by said Municipality Authorities Act of 1945, as amended.

Section 3. If the proper officers of the Board of the Allegheny County Sanitary Authority and the proper officers of the County of Allegheny shall agree to join therein, the City Solicitor is hereby directed to prepare, and the Mayor and the President of Council are hereby authorized and directed to execute and file with the Secretary of the Commonwealth, an application by the City of Pittsburgh to become a member of the Allegheny County Sanitary Authority, as required by the said Municipality Authorities Act of 1945, as amended, such application to be in substantially the following form:

## No. 160

**AN ORDINANCE** — Authorizing the Mayor and the Director of the Department of Public Works to execute a long-term agreement with the Allegheny County Sanitary Authority providing for sewage treatment and disposal service to the City of Pittsburgh and its residents, and imposing charges therefor.

*The Council of the City of Pittsburgh hereby enacts as follows:*

Section 1. The Mayor and the Director of the Department of Public Works are hereby authorized and directed to execute and deliver, for and in behalf of the City of Pittsburgh, a long-term agreement with the Allegheny County Sanitary Authority in substantially the following form:

### AGREEMENT

THIS AGREEMENT, dated for convenience of reference as of the first day of \_\_\_\_\_, 1955, by and between

#### ALLEGHENY COUNTY SANITARY AUTHORITY

(hereinafter sometimes called the "Sewage Agency"), a body corporate and politic of the Commonwealth of Pennsylvania duly created and existing under the provisions of the Municipality Authorities Act of 1945, P. L. 382, as amended, of which Authority the City of Pittsburgh and the County of Allegheny are members and whose corporate documents are of record in the Recorder's Office of Allegheny County in

Charter Books, Vol. 70, page 513 and Vol. 75, page 376,

#### and CITY OF PITTSBURGH

(hereinafter sometimes called the "City"), a municipal corporation of the Commonwealth of Pennsylvania located within the County of Allegheny,

### WITNESSETH:

WHEREAS, The City has heretofore constructed certain sewers but does not have facilities for the treatment and disposal of sewage, and sewage entering its sewers is being discharged without treatment into the rivers and streams; and

WHEREAS, A number of municipalities adjacent to the City have connected their sewers with the City's sewerage system; and

WHEREAS, There are many industries in the Pittsburgh area which are discharging quantities of industrial wastes without treatment either directly into such rivers and streams or indirectly through the sewers of the municipalities in which they are located; and

WHEREAS, Such discharge of untreated sewage and industrial wastes has polluted the rivers and streams, and such pollution has made the rivers and streams undesirable as sources of public water supply and unsafe for bathing, boating and other recreational purposes; is detrimental to business and commercial interests in the Pittsburgh area; and constitutes a serious menace to the health and safety of the inhabitants of the City and such adjacent municipalities; and

WHEREAS, The Sanitary Water Board of the Commonwealth of Pennsylvania (hereinafter sometimes called the "State Board"), acting to abate stream pollution, pursuant to authority conferred upon it by the Act of the General Assembly of Pennsylvania approved June 22, 1937, P. L. 1987, as amended, ordered and directed the City and all other sewerer municipalities in Allegheny County to discontinue the discharge of untreated sewage into the waters of the Commonwealth and to submit construction plans and specifications for

the necessary sewers, pumping stations and sewage treatment works; and

WHEREAS, Shortly thereafter, the Allegheny County Sanitary Authority (hereinafter sometimes called the "Sanitary Authority") was organized by the County Commissioners of Allegheny County to collect, transport, treat and dispose of the sewage and industrial wastes of all the municipalities in the County and thus enable them to comply with the orders of the State Board; and

WHEREAS, The City thereupon and from time to time thereafter loaned to the Sanitary Authority sums totaling \$500,000 for the preparation of preliminary studies and recommendations to enable the City and surrounding municipalities to comply with said order of the State Board; and

WHEREAS, After study of the Sanitary Authority's report and consideration of several zone projects prepared by the Sanitary Authority at the City's request, the City adopted a sewage disposal project, termed "Project Z", designed to serve an area comprising the City and all or portions of fifty-eight adjacent municipalities; and

WHEREAS, Pursuant to such decision the City engage the Sanitary Authority to prepare detailed construction plans and specifications for the Project Z sewage collection and treatment facilities (hereinafter referred to as the "Sewage Disposal System"), and agreed to loan to the Sanitary Authority \$2,000,000 for such purpose, which money was duly advanced, pursuant to an agreement dated August 1, 1949 (herein called the "Project Z Design Agreement") authorized by City Ordinance No. 373 of 1949; and

WHEREAS, In order to make certain that the plans would not become valueless and that the cost of constructing the Sewage Disposal System would be fully paid by its users, the City and the Sanitary Authority executed Municipal Agreements with each of the sewered boroughs and townships located wholly or partially within the Project Z service area, and later authorized the inclusion of several more municipalities, with which Municipal Agreements were also executed; and

WHEREAS, The City authorized sewage service through the Sewage Disposal

System to a number of industrial corporations with which the City and the Sanitary Authority executed Industrial Agreements; and

WHEREAS, In each of said Municipal Agreements the City covenanted that the rates and charges for sewage service (hereinafter sometimes called "Project Z rates") would be uniform throughout the Project Z service area and that all duties and obligations imposed upon the other municipality would likewise be assumed and borne by the City; and

WHEREAS, The City authorized sewage service through the Sewage Disposal System to the Boroughs of Blawnox and Verona, to additional portions of the Townships of O'Hara and Penn, and to the Allegheny County Work House and Inebriate Asylum, by means of a connecting sewage collecting system hereinafter called the "Upper Allegheny System", at special rates comprising the Project Z rates plus such extra charges as may be necessary to amortize the construction cost of the Upper Allegheny System and to pay all operating and other expenses thereof; and

WHEREAS, In each of the Municipal Agreements and Industrial Agreements, and in the Upper Allegheny Agreement, the City reserved the right to designate the agency in such agreements called the "Sewage Agency") which would construct and operate the Sewage Disposal System (and, in the Upper Allegheny Agreement, the Upper Allegheny System as well) following completion of construction plans and specifications by the Sanitary Authority and the approval thereof by the State Board, and the City undertook to make such designation within a reasonable time after the State Board ordered construction to begin; and

WHEREAS, The State Board has approved such construction plans and specifications and — by its Sewage Permits Nos. 8507-S and 8593-S duly recorded in the Recorder's Office of Allegheny County in Deed Books Vol. 3355, page 1 and Vol. 3390, page 684 — has ordered the Sanitary Authority, its successors or assigns, to promptly begin construction of the Sewage Disposal System and the Upper Allegheny System and complete and place them in operation on or before June 30, 1958;

and

WHEREAS, By Ordinance No. ---- approved April --, 1955, the City formally designated and appointed Allegheny County Sanitary Authority, party hereto, to be the Sewage Agency under the said Municipal Agreements, Industrial Agreements and Upper Allegheny Agreement; and

WHEREAS, This agreement, executed by the City in conformity with the provisions of the Municipal Agreements, will benefit the City and its residents and will constitute compliance with the orders of the State Board.

NOW, THEREFORE, in consideration of the premises and the undertakings of each party to the other, the parties hereto, each intending to legally bind itself, its successors and its assigns, covenant and agree as follows

1. Unless the context indicates otherwise, the following definitions shall apply to the terms used in this agreement:

a. "City Ordinance" — ordinance of the City of Pittsburgh.

b. "Industrial Agreement" — any of the several long-term tri-party agreements entered into by the City and the Sanitary Authority with a number of industrial corporations for sewage and industrial waste disposal by the Sewage Disposal System, or any similar agreement executed hereafter by the City and the Sewage Agency. The text of a typical Industrial Agreement is set forth in City Ordinance No. 355 of 1951; others were authorized by City Ordinances Nos. 202 of 1950, 354 of 1951 and 129 of 1954.

c. "Municipal Agreement" — any of the long-term tri-party agreements, for sewage service by the Sewage Disposal System at Project Z rates, entered into by the City and the Sanitary Authority with each of the borough and townships located wholly or partially within the area shown on the map marked "Exhibit A" attached to and made a part of this agreement, pursuant to City Ordinances Nos. 54 and 201 of 1950, 247 and 353 of 1951, 313 of 1952 and 420 of 1954, or any similar agreement executed hereafter by the City and

the Sewage Agency. The text of a typical Municipal Agreement is set forth in City Ordinance No. 54 of 1950. The text of a typical Municipal Agreement is set forth in City Ordinance No. 54 of 1950. The text of a slightly modified Municipal Agreement enlarging the Project Z service area, is set forth in City Ordinance No. 353 of 1951.

d. "Project Z" — the project, as enlarged by some of the Municipal Agreements, contemplated by the Project Z Design Agreement, for the collection, treatment and disposal of the sewage of the City and certain adjacent municipalities by a single system at uniform rates, excluding the areas to be served by the Upper Allegheny System and similar future extra-charge extensions.

e. "Project Z bonds" — the revenue bonds to be issued by the Sewage Agency, the proceeds of which are used for constructing and putting into operation the Sewage Disposal System and for other purposes required under the several Municipal Agreements — which bonds shall be secured by the Sewage Agency's revenues and receipts collected pursuant to this Agreement and to the several Municipal Agreements with other municipalities and by all other revenues and receipts of the Sewage Disposal System, including the Project Z rates paid by customers located beyond the Project Z service area (such as those in the Upper Allegheny service area) — and all revenue bonds issued by the Sewage Agency to maintain, repair, improve, rebuild or extend the Sewage Disposal System.

f. "Project Z rates" — the schedule of sewage service charges of the Sewage Agency applicable throughout the Project Z service area and included as a part of the Upper Allegheny rates so calculated as to yield in the aggregate during each month or quarter year the amount required in each such month or quarter year.

(1) to pay all current administrative, operating, and maintenance expenses of the Sewage Agency in providing service within

the Project Z service area, including the cost of handling all sewage and wastes entering the Sewage Disposal System from within and without the Project Z service area,

(2) to pay the interest on and the principal of all outstanding Project Z bonds and other Project Z obligations as the same become due and payable, and

(3) to create such reserves for such purposes as may be required by any resolution authorizing the issuance of such Project Z bonds or in any trust indenture securing the same.

g. "Project Z service area" — the area shown on Exhibit A hereof and such additional areas as may be entitled by agreement with the City and the Sewage Agency to receive sewage service from the Sewage Disposal System at Project Z rates.

h. "Sanitary Authority" — the Allegheny County Sanitary Authority, party to this agreement.

i. "Sewage Agency" — the Allegheny County Sanitary Authority, party to this agreement, which shall construct and operate the Sewage Disposal System, the Upper Allegheny System, and any additions or extensions thereof, pursuant to this agreement, the several Municipal Agreements, the several Industrial Agreements, the Upper Allegheny Agreement, and any other agreements it may lawfully make.

j. "Sewage Disposal System" — the Project Z sewage collection, transportation, treatment and disposal system authorized by the State Board's Sewerage Permit No. 8507-S, consisting of interceptor sewers located where shown generally on Exhibit A hereof and a single treatment plant located in Pittsburgh on the right bank of the Ohio River near the McKees Rocks Bridge, and any additions thereto or extensions thereof providing service at Project Z rates. It shall not include the Upper Allegheny System or any similar future extra-charge extensions.

k. "Sewage service charges" — the Sewage Agency's charges calculated under the prevailing schedule of Project Z rates, for providing sewage collection, transportation, treatment and disposal service through the Sewage Disposal System.

l. "State Board" — The Sanitary Water Board of the Commonwealth of Pennsylvania.

m. "Upper Allegheny Agreement" — the agreement of February 1, 1952 by and among the City, the Sanitary Authority, the Boroughs of Blawnox and Verona, the Townships of O'Hara and Penn, and the Allegheny County Work House and Inebriate Asylum, the text of which agreement is set forth in City Ordinance No. 255 of 1953.

n. "Upper Allegheny bond" — the revenue bonds to be issued by the Sewage Agency, the proceeds of which are used to construct and put into operation the Upper Allegheny System, which bonds may be secured by the provisions of a separate resolution or indenture and the pledge of the Upper Allegheny extra charges only or may be secured by the provisions of the same resolution or indenture as the Project Z bonds and, ratably with the Project Z bonds, by the pledge of all the revenues of Project Z and the Upper Allegheny System, and all revenue bonds issued by the Sewage Agency to maintain, repair, improve, rebuild or extend the Upper Allegheny System, howsoever such bonds may be designated when issued.

o. "Upper Allegheny extra charges" — the three schedules of extra sums, whether paid by water users in each Upper Allegheny zone as amounts added to the Project Z rates on their individual bills or paid in the aggregate by the several parties to the Upper Allegheny Agreement, which the Sewage Agency shall compute as being reasonably required to yield in total, from all customers in the Upper Allegheny service area, the annual burden and coverage required for the Upper Allegheny System. Such annual burden and coverage shall consist of:

(1) the cost of operating and maintaining the Upper Allegheny System, and all administrative and other expenses in connection therewith.

(2) the interest on and the principal of all outstanding Upper Allegheny bonds and other Upper Allegheny obligations as the same become due and payable, and

(3) such reserves for such purposes as may be required by any resolution authorizing the issuance of such Upper Allegheny bonds or in any trust indenture securing the same.

p. "Upper Allegheny rates" — the Sewage Agency's schedules of sewage service charges applicable within the three zones of the Upper Allegheny service area, comprising the Project Z rates plus such Upper Allegheny extra charges as may be applicable in each zone (either totalled or shown separately on the Sewage Agency's bills or tariffs, at the option of the Sewage Agency).

q. "Upper Allegheny service area" — the area comprising all three zones shown on the map marked "Exhibit B" attached to and made a part of this agreement, and any additions to such area wherein the Upper Allegheny rates shall apply.

r. "Upper Allegheny System" — the sewage interception and transportation system contemplated by the Upper Allegheny Agreement and authorized by the State Board's Sewerage Permit No. 8593-S, which will intercept the sewage of the Upper Allegheny service area and transport the same to a connection with the Sewage Disposal System at the eastern terminus of its Allegheny River interceptor sewer in the Borough of of Aspinwall, and any additions thereto or extensions thereof providing service at Upper Allegheny rates. The system shall consist of interceptor sewers, pumping stations, force mains, storm water control works, and appurtenant facilities, as shown generally on Exhibit B hereof.

2. The rates and charges to be imposed and collected by the Sewage

Agency, as hereinafter set forth, shall be uniform throughout the Project Z service area, and all duties and obligations imposed upon the other municipalities under the several Municipal Agreements shall likewise be borne by the City.

3. The Sewage Agency shall

a. promptly issue and sell Project Z bonds, in sufficient amount to pay

(1) the cost of constructing the Sewage Disposal System and placing the same in operation,

(2) all loans and advances heretofore or hereafter made to the Sanitary Authority by the City and the Federal Works Administration,

(3) all obligations incurred by the Sanitary Authority and by the Sewage Agency which are repayable out of such bond proceeds, and

(4) all other lawful requirements of the Sewage Agency, including, but without limitation, the cost of all lands, property, rights, easements and franchises acquired, financing charges, the cost of legal services, administrative expenses and all other necessary or incident to the construction of the Sewage Disposal System and to the financing thereof;

b. upon receipt of the proceeds of such Project Z bonds, proceed promptly and with due diligence in the construction of the Sewage Disposal System, with the privilege of awarding all or portions of the actual construction work under separate contracts to the lowest responsible bidder for each contract;

c. upon completion of the Sewage Disposal System, intercept all sewage and wastes of the City which are discharged from any municipal outfall sewer located along the interceptor sewers of the Sewage Disposal System (subject to the provisions of Paragraph 5 of this agreement), transport such sewage and wastes to its treatment plant, provide such treatment and disposal

thereof as may be required by law, and operate the Sewage Disposal System in an efficient and economical manner; and

d. make such changes in and additions to the Sewage Disposal System as may be necessary to enable the City to comply with any future lawful orders of the State Board or any other State or Federal Agency in respect of the treatment and disposal of the City's municipal sewage and wastes which enter the Sewage Agency's interceptor sewers, and shall issue additional revenue bonds for such purpose or purposes; provided, however, that the Sewage Agency shall have the right to increase its sewage service charges to such extent as will yield the additional revenue needed to meet all bond requirements and operating and other expenses incurred by the Sewage Agency in the design, construction and operation of such added facilities.

The Sewage Agency shall have the right to enter upon and open such streets, public thoroughfares and vacant land owned by the City as may be necessary to install, construct, extend, replace, repair and maintain the Sewage Agency's interceptor sewers and appurtenances, treatment plant and other structures, or any part thereof; provided, however, that all pavements and underground structures disturbed in the course of such work shall be restored to substantially their original condition. No City permit or license shall be required for any such work, and the City hereby waives all fees and charges in connection therewith, except payment for land taken in fee simple by the Sewage Agency for the site of the treatment plant.

It is understood and agreed that the Sewage Agency shall indemnify and save the City harmless from all costs and expenses (except those provided for in this agreement), liability, claims and demands of any sort arising out of the construction, extension, replacement, operation, maintenance, repair or possession of the Sewage Disposal System by the Sewage Agency.

4. The Sewage Agency shall also, in fulfillment of its obligations under

the Upper Allegheny Agreement,

a. concurrently with or promptly after the issuance and sale of the Project Z bonds, issue and sell Upper Allegheny bonds, either as a part of the Project Z issue or as a separate issue, at the option of the Sewage Agency, in sufficient amount to pay

(1) the cost of constructing the Upper Allegheny System and placing the same in operation, and

(2) all other lawful requirements in connection therewith, including, but without limitation, the cost of all lands, property, rights, easements and franchises acquired, financing charges, the cost of legal services, administrative expenses and all other expenses necessary or incident to the construction of the Upper Allegheny System and to the financing thereof;

b. upon receipt of the proceeds of such Upper Allegheny bonds, proceed promptly and with due diligence in the construction of the Upper Allegheny System, with the privilege of awarding all or portions of the actual construction work under separate contracts to the lowest responsible bidder for each contract;

c. Upon completion of the Sewage Disposal System and the Upper Allegheny System, intercepts all sewage and wastes of the Upper Allegheny service area (subject to the provisions of the Upper Allegheny Agreement), transport such sewage and wastes to its Project Z treatment plant, provide such treatment and disposal thereof as may be required by law, and operate the Sewage Disposal System and the Upper Allegheny System in an efficient and economical manner; and

d. make such modifications of and additions to the Sewage Disposal System and the Upper Allegheny System as may be necessary to enable the parties to the Upper Allegheny Agreement to comply with any future lawful orders of the State Board or any other State or Federal Agency in respect of the treatment and disposal of their sewage and

wastes which enter the Sewage Agency's interceptor sewers, and issue additional revenue bonds for such purpose or purposes in accordance with the provisions of the Upper Allegheny Agreement.

5. The Sewage Agency's interceptor sewers will be constructed approximately where shown on the map marked "Exhibit A" attached hereto and made a part of this agreement. The City understands and agrees that the Sewage Agency will accept for treatment and disposal only such sewage and wastes entering the City's sewers as are discharged from municipal outfall sewers (belonging to the City or to any other municipality) located along such interceptor sewers, and that it shall be the obligation of the City to bring its sewage and wastes to a proper point of connection with such interceptor sewers, as hereinafter set forth. No sewer connection whereby sewage or wastes from any territory outside the Project Z service area may reach a Sewage Agency interceptor sewer shall be made or permitted by the City in the absence of an agreement similar to the Municipal Agreement covering such outside territory.

Provision has been made, in the plans and specifications for the Sewage Disposal System, for the connection with the Sewage Agency's interceptor sewers of all municipal outfall sewers now in place therealong, and only such outfall sewers now being used by the City as are located therealong will be connected with the Sewage Agency's interceptor sewers without cost to the City.

All other outfall sewers now used by the City and every municipal outfall sewer hereafter constructed shall be brought to a point to be approved by the Sewage Agency, in order that proper connection with the Sewage Disposal System may be made. Each such connection shall be made in such a manner as the Sewage Agency shall direct, and at the expense, of the City and any other municipality or municipalities using such outfall sewer.

6. The City and the Sewage Agency shall have the right, subject to the approval of the State Board, to permit municipalities which are partially

or entirely outside the Project Z service area to pump or drain additional sewage or wastes from territory outside such service area into the Sewage Disposal System for treatment and disposal by the Sewage Agency; provided, however, that no such permission shall be given unless an agreement similar to the Municipal Agreement or similar to the Upper Allegheny Agreement shall be executed with the affected municipality or municipalities.

The City and the Sewage Agency shall have the similar right to enter into agreements with industrial firms within and without the Project Z service area for the treatment and disposal of their sewage and wastes which do not enter a municipal sewer; provided, however, that the service charges shall be at least as high as the Project Z rates or Upper Allegheny rates (or other extra-charge rates) prevailing in the same vicinity.

7. The City covenants and agrees that the Sewage Agency shall be the sole and exclusive agency, during the entire life of this agreement, to provide sewage treatment and disposal service to the City or to such portion thereof as may be within the service area of the Sewage Disposal System and to all its water users therein who or which discharge sewage or wastes into the City's sewerage system. The City hereby permits and authorizes the Sewage Agency to impose upon and collect from all such water users the prevailing Project Z rates for sewage service, and covenants to perform all the acts and discharge all the duties and obligations imposed upon it by this agreement. The City further covenants that it will not itself engage in the business of providing sewage treatment and disposal service to such water users, nor will it authorize or permit any other agency, public or private, to do so in competition with or in substitution for the Sewage Agency.

8. Beginning immediately after the Sewage Disposal System has been completed and put in operation, the Sewage Agency shall, for the services and facilities furnished or to be furnished by it, impose upon and collect from the owner, tenant or occupant of each lot or parcel of land within the City from which sewage or wastes enter a

City sewer and thence reach the Sewage Disposal System (hereinafter sometimes called a "user" or "water user") its prevailing Project Z rates, which shall be based or computed upon the quantity of water used in or upon such lot or parcel as determined by gauging or metering or otherwise.

The Sewage Agency's schedule of Project Z rates shall impose reasonable minimum charges, may include such block rates for metered water users and such charges for flat-rate water users as the Sewage Agency shall determine, and shall provide extra charges for commercial and industrial wastes which impose an extraordinary burden on the Sewage Disposal System. The schedule shall be adjusted from time to time in such manner as the Sewage Agency shall deem necessary or proper to insure the collection of adequate revenues to meet its financial requirements.

In case any water user is not the owner of the premises in or on which the water is used, the Sewage Agency may also impose such Project Z rates upon and demand payment thereof from the owner of such premises, so that if payment is not made promptly, a lien therefor against the premises served may be filed by the City as assignee of the Sewage Agency delinquent accounts, as provided in Paragraph 12 of this agreement.

9. The City covenants that during such time as sewage service rates or charges of the Sewage Agency are in effect the City will not impose upon any person, firm or corporation, or upon any property, any rental, rate or charge whatever for the use of or for the privilege of using any City sewer connected with the Sewage Disposal System, to the end that no person, firm or corporation shall be subject to both the Sewage Agency's sewage service rates or charges, as herein provided, and a City sewer rental, rate or charge of any kind whatever excepting general real estate taxes, sewer connection and street opening permit or license fees, and special assessments imposed according to law upon property benefited by the construction of additional sewers, and excepting charges imposed on other municipalities for the joint use, main-

tenance or repair of a City sewer or sewers.

The provisions of this Paragraph shall not apply so long as the optional method of payment provided for in Paragraph 14 of this agreement is in effect.

10. All bills for the Project Z rates shall be computed on the basis of the quantity of water used, whether the water is furnished by the waterworks system of the City or secured from any other source.

The sewage service charge to be paid by each water user within the City shall be computed as follows:

a. Metered water customers — by applying the Sewage Agency's schedule of Project Z rates then in effect to the quantity of water delivered to each water customer during the preceding quarter year or other meter period, as measured by the most recent water meter reading;

b. Flat-rate water customers — by applying the percentage set forth in the Sewage Agency's schedule of Project Z rates then in effect to the flat-rate water bill;

c. Users of water taken from a private water source or public stream — by applying the Sewage Agency's schedule of Project Z rates then in effect to the quantity of water used as estimated by the Sewage Agency; provided, however that if any such water user shall at his or its own expense install and maintain in good operating condition a meter or other measuring device of a type approved by the Sewage Agency, the amount payable by such water user shall be based upon the quantity of water used as so measured.

If the City or other water supplying agency does not make available promptly to the Sewage Agency the necessary data for computing the sewage service charge of any water user, such water user shall be deemed to be a flat-rate water customer and the sewage service charge for such water user shall be calculated in the same manner as for flat-rate water customers, based upon the estimated flat-rate water bill such customer would have to pay.

There shall be no free services rendered by the Sewage Disposal System, and the City (or any department, agency or instrumentality thereof) and all public corporations, all charitable or non-profit institutions and all school districts and other political subdivisions shall pay for the use of the services and facilities thereof in accordance with the established schedule of sewage service charges.

If any substantial portion of the water used regularly on any lot or parcel of land does not enter the City's sewerage system, the owner, tenant, or occupant of such lot or parcel may secure a reduction in the amount of the sewerage service charges to be paid by him, subject to the established minimum charges, by installing, at his own expense and subject to such regulation as may be prescribed by the Sewage Agency, a separate meter or other measuring device approved by the Sewage Agency for measuring the water so used, in which event the quantity of water so used shall thereafter be excluded in computing the sewage service charges to be paid by the owner, tenant or occupant of such lot or parcel.

In cases where the character of sewage or industrial wastes from any commercial, manufacturing or industrial plant, building or premises is such that it imposes a burden upon the Sewage Disposal System in addition to the burden imposed by the average sewage, such additional charge shall be made therefor as the Sewage Agency shall deem to be fair and equitable to meet the additional cost of collecting, transporting, treating and disposing of such sewage or wastes; or the Sewage Agency may, if it deems it advisable, require the owner, tenant or occupant of such commercial, manufacturing or industrial plant, building or premises to pre-treat such sewage or wastes in such manner as shall be specified by the Sewage Agency before discharging such sewage or wastes into the City's sewerage system.

11. In order to enable the Sewage Agency to compute its sewage service charges based thereon as provided in Paragraph 10 hereof, the City, so long as it operates its own waterworks system, shall furnish to the Sewage Agency,

not later than the 15th day of the month following the month during which water bills are issued, a list or lists of all water meter readings and flat-rate water bills issued during the preceding calendar month, together with the basis for each flat-rate water user's water bill, and shall include therein the meter readings of meters installed by water users taking water from a private water source or public stream. The Sewage Agency will request similar information from the private water company, municipal authority or other agency supplying water to any water users within the City. If by reason of failure to obtain such data promptly the Sewage Agency is compelled to treat any water users as though they were flat-rate water customers, as further provided above in the said Paragraph 10, and in so doing is obliged to survey the premises of each such water user for the purpose of determining his or its flat-rate water status, the cost incurred by the Sewage Agency in making such survey or surveys shall be repaid to it by the City. The City authorizes the Sewage Agency to make such survey or surveys, and it is agreed that every water user, in accepting the Sewage Agency's service, authorizes the Sewage Agency to enter upon his or its premises for such purpose.

The Sewage Agency will reimburse the City and other water supplying agencies, on or before April first of each year, for the reasonable added clerical expense incurred by each of them during the previous calendar year in preparing the lists of metered water data and of flat-rate bills hereinabove referred to, but not for the cost of reading meters, excepting only the cost of reading such meters as may be installed by or for users of water who are not connected with their respective waterworks systems.

12. The schedule of sewage service rates or charges to be imposed and collected during any year by the Sewage Agency shall be so calculated and adjusted as to provide revenues which will be sufficient to pay all current expenses and meet all obligations of the Sewage Agency during such year. It is understood by the City that not all bills for sewage service charges will be paid promptly, and that some of such bills

in an indeterminate amount will become delinquent each year. In consideration of the services rendered by the Sewage Agency to the City under the provisions of this agreement, which will effect compliance by the City with the duty imposed upon it by law to cease the pollution of the waters of the Commonwealth, and in further consideration of the assignment to it of the delinquent accounts, as hereinafter provided, the City agrees to pay to the Sewage Agency, out of the City's current revenues as hereinafter provided, the face amount of all delinquent accounts of the Sewage Agency.

If any water user shall fail to pay the sewage service charges of the Sewage Agency within sixty (60) days after the due date of the bill therefor, the account of such water user shall be deemed delinquent. The Sewage Agency shall prepare and submit to the City, on or before January 1, April 1, July 1 and October 1 of each year, a list of all delinquent accounts, showing the face amount of each account, the penalty thereon, and the interest accrued. The City shall, within sixty (60) days after the furnishing of such list, pay to the Sewage Agency the face amount of all such delinquent accounts. Upon receipt of such amount from the City, the Sewage Agency shall promptly assign to the City all such accounts, for the sole use and benefit of the City.

The Sewage Agency agrees that the City shall have the right to pursue and enforce any and all remedies now available or hereafter to become available to it, to compel payment by any delinquent water user of the sewage service charges, together with penalties, interest and costs, which may be due and owing by him or it.

13. The City agrees that if the schedule of Project Z rates in effect at any time does not, or in the opinion of the Sewage Agency may not, yield sufficient revenue to meet the Sewage Agency's Project Z financial requirements, or if the Sewage Agency finds that such schedule has proved to be inequitable, the Sewage Agency shall have the right at any time and from time to time to revise and adjust its sewage service charges in such manner and to such extent as it may deem advisable.

At least sixty (60) days before any revised Project Z rates shall become effective the Sewage Agency shall submit in writing to the City a statement setting forth the new schedule of sewage service charges and the reasons why it was found necessary or desirable to put them into effect. Such new schedule of charges shall go into effect at the time specified in said statement (not earlier however, than sixty (60) days from the furnishing of such statement), unless suspended by a final decree of a court of competent jurisdiction.

14. The City shall have the option of paying the aggregate amount of all sewage service charges which, under Paragraph 8-13 of this agreement, would be payable by its water users, in consideration of the performance by the Sewage Agency of the City's legal duty to cease the pollution of the waters of the Commonwealth. In such event the individual charges of each water user shall be computed in the same manner as hereinbefore set forth, but instead of sending individual bills to all water users, all such individual bills shall be totaled and the aggregate amount thereof shall be billed quarterly to the City. The City covenants that so long as such method of payment is in effect it will pay each such quarterly aggregate amount, out of the City's current revenues as hereinafter provided, within sixty (60) days after the date of the bill therefor. The Sewage Agency will refund to the City, on or before April first of each year, as a credit for the saving in billing expense, a sum equal to the average cost per customer incurred by the Sewage Agency during the preceding calendar year for billing and collecting its charges from individual water users in all other municipalities served by it, multiplied by the average number of individual water users in the City.

Before the Sewage Disposal System is completed and put in operation, the Sewage Agency shall request the City in writing to indicate whether it desires to adopt the optional method of payment provided for in this Paragraph. Unless the City shall so indicate by ordinance duly enacted not later than ninety (90) days after the date of the Sewage Agency's written request, and shall promptly send to the Sewage Agency a certified copy of such ordi-

nance, the method of payment provided for in Paragraphs 8-13 of this agreement shall become effective.

No change in the method of payment applicable to the City and its water users shall be made except at the request of the City, made by ordinance duly enacted, and with the approval of the Sewage Agency, formally given by resolution of its Board.

15. If there exists any connection through which sewage or wastes emanating from any territory outside the corporate limits of the City enters the City's sewerage system and thence reaches the Sewage Agency's interceptor sewer, and if the municipality having jurisdiction over such territory has not executed a Municipal Agreement with the Sewage Agency, or does not execute a similar agreement, the City shall either promptly shut off or remove such connection or shall pay to the Sewage Agency so long as such sewage continues to enter the City's sewerage system, the estimated costs of collecting, transporting, treating and disposing of such sewage, such estimated cost to be approximately the same as if the water users within such territory were subject to the Sewage Agency's prevailing sewage service charges.

16. The City shall annually provide in its budget for obtaining the funds necessary to meet its obligations under this agreement. On or before October 1 of each year the Sewage Agency shall supply to the City's Mayor and Council a written estimate of the total amount of delinquent accounts, of (if the optional method of payment is applicable to the City) of the total aggregate amount of all sewage service charges, which the City will probably be required to pay to the Sewage Agency during the ensuing fiscal year; plus, in either case, the estimated amount (if any) due under Paragraph 15 of this agreement. The City shall, by proper ordinance, promptly levy a special tax, or provide for obtaining revenues in any other lawful manner, or resort to any two or more methods of securing the funds required under this agreement, in such manner as to assure that the City shall obtain or collect during the ensuing fiscal year a sum which, together with any unused moneys remaining from previous years, will be at least 120%

of such estimated amount to become due under this agreement during such year. The revenues collected from such tax levy or from any other source so designated by the City or from any combination thereof which the City may elect to employ, shall be deposited to the credit of a special fund to be designated "Sewage Agency Fund", the moneys in which shall be used by the City to meet its obligations under this agreement and shall not be used for any other purpose whatever.

If the entire amount due the Sewage Agency under this agreement for any year is not paid out of the current revenues of the City for such year the balance thereof shall be paid out of the current revenues of succeeding years.

17. The Sewage Agency shall have the right to promulgate, issue, publish and enforce rules and regulations governing its activities and carrying into effect the provisions of this agreement. Such rules and regulations may include provisions prohibiting or regulating the discharge into the City's sewerage system of oils, acids and other substances which may be harmful to the Sewage Agency's sewers, pumping stations or other structures or which may interfere with the sewage treatment processes at the Sewage Agency's plant.

The City may, in its own discretion and without let or hindrance from the Sewage Agency permit the connection with any City sewer that discharges into a Sewage Agency interceptor sewer of any and all premises used wholly as private dwellings, but no permit shall be issued by the City for the connection with any such sewer of any premises used wholly or in part for commercial or industrial purposes unless the application for such permit shall first have been submitted to and been approved by the Sewage Agency.

The City recognizes that the carrying out by the Sewage Agency of its obligations under this agreement will enable the City to perform the duty imposed upon it by law to provide for the proper treatment and disposal of its sewage and the City therefore agrees to exercise for the benefit of the Sewage Agency all rights and powers which it may possess to carry into effect the purposes and intent of this agreement. The City accordingly agrees, on request

of the Sewage Agency, to enact an Ordinance incorporating all or designated portions of the Sewage Agency's rules and regulations and providing appropriate penalties for the violation thereof, to amend such ordinance from time to time as requested by the Sewage Agency, and to enforce the provisions thereof fully and prosecute all violators thereof diligently.

18. This agreement shall become effective immediately, and shall remain in full force and effect until the date of expiration of the legal existence of the Sewage Agency or until the expiration of one calendar year following the payment in full of all bonds, notes and other obligations of the Sewage Agency, original and refunding, issued by it to finance the construction, replacement, maintenance and operation of the Sewage Disposal System and the Upper Allegheny System and additions thereto, whichever date shall be later.

IN WITNESS WHEREOF, Allegheny County Sanitary Authority has caused this agreement to be executed by its Chairman and its official seal to be hereunto impressed and attested by its Secretary pursuant to a resolution duly adopted by its Board on the 15th day of April, 1955, and City of Pittsburgh has caused this agreement to be executed by its Mayor and Director of the Department of Public Works and its official seal to be hereunto impressed, pursuant to Ordinance No. ----, duly enacted and approved on the ---- day of ----, 1955.

10. The COMMONWEALTH agrees to pay for all grading, spoil, embankment, paving and storm water connections, including inlet connections, required by the plans and specifications for the area between the curb lines of Forbes Street, as widened, except such work as is the responsibility of the CITY, and the work in the Pittsburgh Railways Company franchise area.

11. CITY shall have the right during construction to enter upon and carry out any and all additional work required to be done as incorporated in the approved plans.

12. CITY further agrees to reimburse COMMONWEALTH for the additional inspectional costs up to liquidated damages assessed on the City's contract in the event such damages are assessed.

## No. 237

**AN ORDINANCE**—Establishing procedures for the elimination of discrimination in the social, cultural and economic life of the City; requiring fair employment practices by prohibiting discrimination in employment because of race, color, religion, ancestry, national origin or place of birth by employers, employment agencies, labor organizations and others; establishing a Commission on Human Relations in the Office of the Mayor and prescribing the powers and duties thereof, including the powers and duties heretofore performed by the Division of Civic Unity, the Civic Unity Council and the Fair Employment Practices Commission; and providing penalties.

Whereas, discrimination because of race, color, religion, ancestry, national origin or place of birth is contrary to American principles; and

Whereas, such discrimination creates tensions between groups, thus fomenting strife, disturbances and disorders which substantially and adversely affect the good order and general welfare of the City of Pittsburgh; and

Whereas, such discrimination with consequent restriction of opportunity to participate in the cultural, social and economic life of the City unjustly condemns large groups of residents of the City to depressed living conditions which breed crime, vice, juvenile delinquency and disease, thereby endangering the public safety and public health of the City; and

Whereas, the harmful effects of such discrimination also impair the City's productive capacity, reduce the public revenues and impose substantial financial burdens upon the public for the relief and amelioration of the conditions so created; and

Whereas, experience in other large cities has proved that legislation prohibiting job discrimination removes some of the sources of strife, poverty, crime and disease, and directly promotes public welfare and good government; and

Whereas, it is deemed to be to the best interests of the City to centralize the administration and enforcement of

anti-discrimination legislation in a single agency; NOW, THEREFORE,

*The Council of the City of Pittsburgh hereby enacts as follows:*

### Section 1. Declaration of Policy.

It is hereby declared to be the policy of the City in the exercise of its police power for the protection of the public safety, the public health and the general welfare, for the maintenance of peace and good government and for the promotion of the City's trade, commerce and manufactures, to promote and protect the right and opportunity of all persons to participate in the social, cultural and economic life of the City, free from restrictions because of race, color, religion, ancestry, national origin or place of birth.

### Section 2. Scope of the Ordinance.

Five (5) members of the Commission shall constitute a quorum for the transaction of business, and a majority vote of those present at any meeting shall be sufficient for any official action taken by the Commission.

(b) Initiate or receive and investigate other complaints of discrimination against any person because of race, color, religion, ancestry, national origin or place of birth, and to seek conciliation of such complaints. Any complaint filed under this subsection which the Commission believes may constitute a violation of a law of the Commonwealth of Pennsylvania or an ordinance of the City may be certified to the City Solicitor for such action as he may deem proper.

(c) Study and investigate by means of public hearings or otherwise any conditions having an adverse effect on intergroup relations, including alleged violations of the penal laws of the Commonwealth of Pennsylvania prohibiting discrimination in public accommodations, as well as any other laws of the Commonwealth or ordinances of the City heretofore or enacted prohibiting discrimination against persons because of race, color, religion, ancestry, national origin or place of birth.

(d) Institute and conduct educational and other programs to promote the equal rights and opportunities of all persons, regardless of their race, color, religion, ancestry, national origin or place of birth, and to promote understanding among persons and groups of different races, colors, religions, ancestories, national origins or places of birth. established by the United States, by the Commonwealth of Pennsylvania, or by any political subdivision of the Commonwealth having jurisdiction in the City of Pittsburgh, or except where based upon a bona fide occupational qualification certified by the Commission to be an occupation or position which reasonably requires the employment of a person or persons of a particular race, color or religion, in accordance with subsection (a) or section 5 of this ordinance:

(a) For any employer to refuse to hire any individual or to otherwise discriminate against any individual with respect to hiring, tenure, compensation, promotion, discharge or any other terms, conditions or privileges directly or indirectly related to employment because of race, color, religion, ancestry, national origin or place of birth.

(g) For any labor organization to discriminate against any individual in any way which would deprive or limit his employment opportunities or otherwise adversely affect his status as an applicant for employment or as an employee with regard to tenure, compensation, promotion, discharge or any other terms, conditions or privileges directly or indirectly related to employment because of race, color, religion, ancestry, national origin or place of birth.

(h) For any employer, employment agency or labor organization to discriminate against any individual because he has opposed any practice forbidden by this ordinance or because he has made a complaint or testified or assisted in any manner in any investigation or proceeding under this ordinance.

(j) If the provisions of this ordinance are not otherwise violated, it shall not be an unlawful employment practice for any employer to select for employment any person who possesses qualifications, training or experience which best adapt him for the employer's business or profession.

Section 8. Procedure with respect to complaints of unlawful employment practices.

(a) A complaint charging that any person has engaged or is engaging

in any unlawful employment practice may be made by the Commission itself, by an aggrieved individual, or by an organization which has as one of its purposes the combating of discrimination or the promotion of equal employment opportunities. A complaint must be filed with the Commission within sixty (60) days after the alleged unlawful employment practice.

(b) The Commission shall make a prompt and full investigation of each complaint of an unlawful employment practice.

## No. 372

**AN ORDINANCE** — Authorizing the Mayor and the Director of the Department of Public Works to execute a long-term agreement with the Allegheny County Sanitary Authority and the Borough of Monroeville for sewage treatment and disposal service to the Borough by the Sewage Disposal System that will serve the City of Pittsburgh, and providing charges therefor.

*The Council of the City of Pittsburgh hereby enacts as follows:*

Section 1. That the Mayor and the Director of the Department of Public Works are hereby authorized and directed to execute and deliver, for and in behalf of the City of Pittsburgh, an agreement by and among City of Pittsburgh, Allegheny County Sanitary Authority and Borough of Monroeville in substantially the following form:

### AGREEMENT

This Agreement, dated for convenience of reference as of the first day of August, 1955, by and among

#### CITY OF PITTSBURGH

(hereinafter sometimes called the "City"), a municipal corporation of the Commonwealth of Pennsylvania located within the County of Allegheny,

#### ALLEGHENY COUNTY SANITARY AUTHORITY

(hereinafter sometimes called the "Sanitary Authority" or the "Sewage Agency"), a body corporate and politic of the Commonwealth of Pennsylvania duly created and existing under the provisions of the Municipality Authorities Act of 1945, as amended, and

**BOROUGH OF MONROEVILLE** (hereinafter sometimes called "Monroeville" or the "Borough"), a municipal corporation of the Commonwealth of Pennsylvania also located within the County of Allegheny,

### WITNESSETH:

Whereas, The Pennsylvania Sanitary Water Board (herein called the "State Board"), acting to abate stream pollution, pursuant to authority conferred upon it by the Pure Streams Law, has ordered Monroeville to provide a comprehensive plan for the disposal of the sewage of its rapidly increasing population; and

Whereas, The Sanitary Authority was organized to enable all the municipalities in Allegheny County to comply with orders of the State Board to cease discharging untreated sewage into the waters of the Commonwealth; and

Whereas, The Sanitary Authority — with the aid of loans totaling \$2,500,000 from the City, and under the terms of separate long-term service agreements (herein called "Municipal Agreements") with the City and each of sixty-three surrounding municipalities, of which Monroeville is not one — has completed construction plans which have received the approval of the State Board for a Sewage Disposal System consisting of a large treatment plant and 63 miles of intercepting sewers adequate to serve those municipalities; and

Whereas, The City has designated and appointed the Sanitary Authority to be the Sewage Agency which will construct and operate the Sewage Disposal System, the City having reserved in every Municipal Agreement the right to do so; and

Whereas, Although the Sanitary Authority is almost ready to advertise for construction bids for the Sewage Disposal System, the City and the Sanitary Authority are willing to alter the plans so as to accommodate the anticipated future population of Monroeville, provided the Borough pays the entire engineering and construction cost of providing the necessary increased capacity in the Sewage Agency's intercepting sewer and enlarged and additional appurtenant facilities along Turtle Creek; and

Whereas, It will be much more eco-

nomical as well as more desirable to obtain sewage disposal service for the residents of Monroeville from the Sanitary Authority under the terms of this agreement than to have the Borough construct and operate the necessary sewage treatment plants which the State Board will require; and

Whereas, The execution of this agreement by the Borough will constitute compliance by the Borough with the orders of the State Board, and will enable it to obtain permits from the State Board for the prompt construction of badly-needed trunk sewers leading to Turtle Creek, to serve the Borough's schools and homes.

Now, Therefore, in consideration of the premises and the undertakings of each party to the other, THE PARTIES hereto, each intending to legally bind itself, its successors and its assigns, COVENANT AND AGREE as follows:

1. Unless the context indicates otherwise, the following definitions shall apply to the terms used in this agreement:

a. "City Ordinance"—ordinance of the City of Pittsburgh.

b. "Industrial Agreement"—any of the several long-term tri-party agreements entered into by the City and the Sanitary Authority with a number of industrial corporations for sewage and industrial waste disposal by the Sewage Disposal System, or any similar agreement executed hereafter by the City and the Sewage Agency. The text of a typical Industrial Agreement is set forth in City Ordinance No. 355 of 1951; others were authorized by City Ordinances Nos. 202 of 1950, 354 of 1951 and 129 of 1954.

c. "Municipal Agreement"—any of the long-term tri-party agreements heretofore entered into by the City and the Sanitary Authority with each of numerous boroughs and townships for sewage service by the Sewage Disposal System at Project Z rates, pursuant to City Ordinances Nos. 54 and 201 of 1950, 247 and 353 of 1951, 313 of 1952 and 420 of 1954, or any similar agreement executed hereafter by the City and the Sewage Agency. The term "Municipal Agreement" shall also include the long-term agreement be-

tween the City and the Sanitary Authority authorized by City Ordinance No. 160 of 1955, for sewage service to the City of Pittsburgh at Project Z rates.

d. "Project Z"—the project, as enlarged by some of the Municipal Agreements and by this agreement, contemplated by the Project Z Design Agreement authorized by City Ordinance No. 373 of 1949, for the collection, treatment and disposal of the sewage of the City and numerous adjacent municipalities by a single system at uniform rates, excluding the areas to be served by the Upper Allegheny System and similar future extra-charge extensions.

e. "Project Z bonds"—the revenue bonds, notes or other obligations evidencing indebtedness to be issued or incurred by the Sewage Agency, the proceeds of which are used for constructing and putting into operation the Sewage Disposal System and for other purposes required under the several Municipal Agreements and this agreement — which bonds, notes or other obligations shall be secured by the Sewage Agency's revenues and receipts collected pursuant to this agreement and to the several Municipal Agreements with other municipalities and by all other revenues and receipts of the Sewage Disposal System, including the Project Z rates paid by customers located beyond the Project Z service area (such as those in the Upper Allegheny service area)—and all revenue bonds, notes or other obligations issued by the Sewage Agency to maintain, repair, improve, rebuild or extend the Sewage Disposal System.

f. "Project Z rates"—the schedule of sewage service charges of the Sewage Agency applicable throughout the Project Z service area (including Monroeville) and comprising a part of the Upper Allegheny rates, so calculated as to yield in the aggregate during each month or quarter year the amount required in each such month or quarter year

(1) to pay all current administrative, operating, and maintenance expenses of the Sewage Agency in providing service within the Project Z service area, including the cost of handling

all sewage and wastes entering the Sewage Disposal System from within and without the Project Z service area,

(2) to pay the interest on and the principal of all outstanding Project Z bonds and other Project Z obligations as the same become due and payable, and

(3) to create such reserves for such purposes as may be required by any resolution authorizing the issuance of such Project Z bonds or in any trust indenture securing the same.

g. "Project Z service area"—the area covered by the several Municipal Agreements, as enlarged by this agreement to include Monroeville (except certain excluded portions), and such additional areas as may be entitled by agreement with the City and the Sewage Agency to receive sewage service from the Sewage Disposal System at Project Z rates

h. "Pure Streams Law"—the Act of the General Assembly of Pennsylvania approved June 22, 1937, P.L. 1987, as amended.

i. "Sanitary Authority"—the Allegheny County Sanitary Authority, party to this agreement.

j. "Sewage Agency"—the Allegheny County Sanitary Authority, party to this agreement, which shall construct and operate the Sewage Disposal System, the Upper Allegheny System, and any additions thereto or extensions thereof, pursuant to this agreement, the several Municipal Agreements, the several Industrial Agreements, the Upper Allegheny Agreement, and any other agreements it may lawfully make.

k. "Sewage Disposal System"—the Project Z sewage collection, transportation, treatment and disposal system authorized by the State Board's Sewerage Permit No. 8507-S, consisting of interceptor sewers located along the three rivers and two main creeks in the Pittsburgh area and a single treatment plant located in Pittsburgh on the right bank of the Ohio River near the McKees Rocks Bridge, and any additions thereto or extensions thereof providing service at Project Z rates. It shall not include the Upper Allegheny

System or any similar future extra-charge extensions.

l. "Sewage service charges"—the Sewage Agency's charges, calculated under the prevailing schedule of Project Z rates, for providing sewage collection, transportation, treatment and disposal service through the Sewage Disposal System.

m. "State Board"—the Sanitary Water Board of the Commonwealth of Pennsylvania.

n. "Upper Allegheny Agreement"—the agreement of February 1, 1952 by and among the City, the Sanitary Authority, the Boroughs of Blawnox and Verona, the Townships of O'Hara and Penn, and the Allegheny County Work House and Inebriate Asylum, the text of which agreement is set forth in City Ordinance No. 255 of 1953.

o. "Extra bonds for Monroeville"—Project Z bonds (not particularly identified or specially designated) in the face amount of Four Hundred Thirty-five Thousand (\$435,000) Dollars—the agreed additional cost of constructing the enlarged intercepting sewer and other facilities along Turtle Creek to accommodate Monroeville over the cost of constructing the smaller facilities originally designed—or, if the Borough shall on or before January 1, 1956 advance to the Sanitary Authority in cash a portion of such cost, a correspondingly reduced face amount of Project Z bonds.

p. "Annual debt burden"—the sum required each year to pay or provide (1) the interest on and the principal of the extra bonds for Monroeville and (2) a proportionate share of such reserves for such purposes as may be required by any resolution authorizing the issuance of the Project Z bonds or in any trust indenture or agreement securing the same.

2. The City and the Sanitary Authority hereby enlarge the Project Z service area to include all of the Borough of Monroeville except the portions thereof to be served by the Borough's Garden City sewage treatment plant and by the privately owned plants of the Pittsburgh Miracle Mile Town and Country Shopping Center and of Tourinns, Inc., limited to a maximum future Borough pop-

ulation of 50,000. The Borough will thus be enabled to perform its legal duty to avoid polluting the streams of the Commonwealth, in compliance with the requirements of the Pure Streams Law and with the orders of the State Board.

The Sanitary Authority will promptly prepare new construction plans and specifications, to replace those already completed, for its intercepting sewer and other facilities along Turtle Creek, so that the same shall be adequate in capacity to accommodate the sewage of such anticipated future population of Monroeville (excluding the portions above noted) as well as that of the other municipalities in the Turtle Creek Valley which have executed Municipal Agreements for sewage service from the Sewage Disposal System.

The parties hereto agree that the cost of preparing the necessary revised plans and specifications is Fifteen Thousand (\$15,000) Dollars and that the additional cost of construction is Four Hundred Thirty-five Thousand (\$435,000) Dollars (including \$10,000 for engineering supervision), all of which shall be paid or borne by the Borough in the manner hereinafter set forth, in addition to payment of the Sewage Agency's Project Z rates for sewage service.

This agreement is expressly conditioned upon the payment by the Borough to the Sanitary Authority of the said sum of \$15,000 not later than August 15, 1955. Failure by the Borough to do so shall nullify this agreement and shall release the City and the Sanitary Authority from any obligation to provide sewage facilities for or sewage service to the Borough or its inhabitants.

The Borough shall have the right to advance to the Sanitary Authority on or before January 1, 1956 all or any part of the said additional sum of \$435,000. To provide all or the unpaid balance of said sum of \$435,000, the Sanitary Authority agrees, for the benefit and at the request of the Borough, to include in its Project Z bonds extra bonds for Monroeville for the purpose of financing the added cost of constructing the enlarged and additional facilities along Turtle Creek. In consideration of such financing undertaken by the Sanitary Authority in discharge of the Borough's legal obligation to provide for the treat-

ment and disposal of its sewage, the Borough hereby covenants and agrees to pay promptly to the Sanitary Authority, out of the Borough's current revenues as hereinafter provided in Paragraph 13, the annual debt burden of such extra bonds for Monroeville, in addition to the sums due the Sanitary Authority for sewage service at Project Z rates.

3. The Sewage Agency shall

a. promptly issue and sell Project Z bonds, including such extra bonds for Monroeville, in sufficient amount to pay

(1) the cost of constructing the Sewage Disposal System, including such enlarged and additional facilities along Turtle Creek, and placing the same in operation,

(2) all loans and advances heretofore or hereafter made to the Sanitary Authority by the City and the Federal Works Administration.

(3) all obligations incurred by the Sanitary Authority and by the Sewage Agency which are repayable out of such bond proceeds, and

(4) all other lawful requirements of the Sewage Agency, including, but without limitation, the cost of all lands, property, rights, easements and franchises acquired, financing charges, the cost of legal services, administrative expenses and all other expenses necessary or incident to the construction of the Sewage Disposal System and to the financing thereof;

b. upon receipt of the proceeds of such Project Z bonds, proceed promptly and with due diligence in the construction of the Sewage Disposal System, with the privilege of awarding all or portions of the actual construction work under separate contracts to the lowest responsible bidder for each contract;

c. upon completion of the Sewage Disposal System, intercept all sewage and wastes of the Borough which are discharged from any municipal outfall sewer located along the Turtle Creek interceptor sewer of the Sewage Disposal System (subject to the pro-

visions of Paragraph 4 of this agreement), transport such sewage and wastes to its treatment plant, provide such treatment and disposal thereof as may be required by law, and operate the Sewage Disposal System in an efficient and economical manner; and

d. make such changes in and additions to the Sewage Disposal System as may be necessary to enable the Borough to comply with any future lawful orders of the State Board or any other State or Federal Agency in respect of the treatment and disposal of the Borough's municipal sewage and wastes which enter the Sewage Agency's interceptor sewers, and shall issue additional revenue bonds for such purpose or purposes; provided, however, that the Sewage Agency shall have the right to increase its sewage service charges to such extent as will yield the additional revenue needed to meet all bond requirements and operating and other expenses incurred by the Sewage Agency in the design, construction and operation of such added facilities.

The Sewage Agency shall have the right to enter upon and open such streets, public thoroughfares and vacant land owned by the Borough as may be necessary to install, construct, extend, replace, repair and maintain the Sewage Agency's interceptor sewers and appurtenances, control works and other structures, or any part thereof; provided however, that all pavements and underground structures disturbed in the course of such work shall be restored to substantially their original condition. No Borough permit or license shall be required for any such work, and the Borough hereby waives all fees and charges in connection therewith.

It is understood and agreed that the Sewage Agency shall indemnify and save the Borough harmless from all costs and expenses (except those provided for in this agreement), liability, claim and demands of any sort arising out of the construction, extension, replacement, operation, maintenance, repair or possession of the Sewage Disposal System by the Sewage Agency.

4 The Sewage Agency's intercepting sewer serving the Borough will be constructed along Turtle Creek. The Bor-

ough understands and agrees that the Sewage Agency will accept for treatment and disposal only such sewage and wastes entering the Borough's sewers as are discharged from municipal outfall sewers (belonging to the Borough or to any other municipality) located along such intercepting sewer, and that it shall be the obligation of the Borough to bring its sewage and wastes to a proper point of connection with such intercepting sewer, as hereinafter set forth. No sewer connection whereby sewage or wastes from any territory outside the Project Z service area may reach a Sewage Agency intercepting sewer shall be made or permitted by the Borough in the absence of an agreement similar to the Municipal Agreement or similar to the Upper Allegheny Agreement covering such outside territory.

To serve Monroeville, the Sewage Agency will design and construct, without additional charge to the Borough, connections with necessary appurtenant control works or diversion structures for not more than twelve outfall sewers on the Sewage Agency's Turtle Creek intercepting sewer, located as follows: (1) at Thompson's Run in Turtle Creek Borough, (2) at Patton Street in Wilmerding Borough, (3) at a point in Pitcairn Borough approximately 600 feet west of Walls Avenues, (4) at Moss Side Boulevard in Monroeville Borough, (5) at the upstream terminus of the Sewage Agency's intercepting sewer at Forbes Street in Trafford, and at not more than seven other points to be approved by the Sewage Agency. Connections to any additional outfall sewers shall be made in such manner as the Sewage Agency shall direct, and at the expense of the Borough and any other municipality or municipalities using each such outfall sewer.

The Borough shall provide for the separation of sanitary sewage and wastes from storm or surface drainage. Only sanitary sewers shall be connected directly or indirectly with the Sewage Disposal System. The Borough shall not permit the discharge of storm or surface water into any sanitary sewer and shall require the disconnection therefrom of roof and other storm water drains.

No existing or future outfall sewer into which flows a surface or sub-surface stream or the acid drainage of a coal

mine shall be connected with the Sewage Agency's interceptor sewer. If any such outfall sewer is discovered by the Sanitary Authority, it shall notify the Borough thereof in writing, and if such condition is not promptly remedied, no provision shall be made in the plans and specifications for the connection of such outfall sewer with the Sewage Disposal System. If any such condition occurs or is discovered after a connection has been made, and if the Borough does not divert and exclude such stream or acid drainage promptly after receiving written notice from the Sewage Agency to do so, the Sewage Agency shall have the right either to disconnect such outfall sewer from the Sewage Disposal System or to construct the necessary facilities to divert and exclude such stream or acid drainage and to charge the cost thereof to the Borough. The Borough hereby agrees to pay such cost in such event.

5. The City and the Sewage Agency shall have the right, subject to the approval of the State Board but without consulting or notifying the Borough, to permit municipalities which are partially or entirely outside the Project Z service area to pump or drain additional sewage or wastes from territory outside such service area into the Sewage Disposal System for treatment and disposal by the Sewage Agency; provided, however, that no such permission shall be given unless an agreement similar to the Municipal Agreement or similar to the Upper Allegheny Agreement shall be executed with the affected municipality or municipalities.

The City and the Sewage Agency shall have the similar right to enter into agreements with industrial firms within and without the Project Z service area for the treatment and disposal of their sewage and wastes which do not enter a municipal sewer; provided, however, that the service charges shall be at least as high as the Project Z rates or Upper Allegheny rates (or other extra-charge rates) prevailing in the same vicinity.

6. The Borough covenants and agrees that the Sewage Agency shall be the sole and exclusive agency, during the entire life of this agreement, to provide sewage treatment and disposal service to the Borough (except such portions thereof as are excluded from the service area of the Sewage Disposal System under Para-

graph 2 of this agreement) and to all its water users therein who or which discharge sewage or wastes into the Borough's sewerage system. The Borough hereby covenants to pay to the Sewage Agency the prevailing Project Z rates for sewage service to all such water users, and covenants to perform all the acts and discharge all the duties and obligations imposed upon it by this agreement. The Borough further covenants that it will not itself engage in the business of providing sewage treatment and disposal service to such water users, nor will it authorize or permit any other agency, public or private, to do so in competition with or in substitution for the Sewage Agency.

7. Beginning immediately after the Sewage Disposal System has been completed and put in operation, the Sewage Agency shall, for the services and facilities furnished or to be furnished by it, impose upon and collect from the Borough, for sewage service to the owner, tenant or occupant of each lot or parcel of land within the Borough from which sewage or wastes enter a Borough sewer and thence reach the Sewage Disposal System (hereinafter sometimes called a "user" or "water user") its prevailing Project Z rates, which shall be based or computed upon the quantity of water used in or upon such lot or parcel as determined by gauging or metering or otherwise.

The Sewage Agency's schedule of Project Z rates shall impose reasonable minimum charges, may include such block rates for metered water users and such charges for flat-rate water users as the Sewage Agency shall determine, and shall provide extra charges for commercial and industrial wastes which impose an extraordinary burden on the Sewage Disposal System. The schedule shall be adjusted from time to time in such manner as the Sewage Agency shall deem necessary or proper to insure the collection of adequate revenue to meet its financial requirements.

8. All charges for sewage service under the Project Z rates shall be computed on the basis of the quantity of water used, whether the water is furnished by the waterworks system of the Borough or secured from any other source.

The sewage service charge to be paid by the Borough for sewage service to

each water user within the Borough shall be computed as follows:

a. Metered water users—by applying the Sewage Agency's schedule of Project Z rates then in effect to the quantity of water delivered to each water user during the preceding quarter year or other meter period, as measured by the most recent water meter reading:

b. Flat-rate water users—by applying the percentage set forth in the Sewage Agency's schedule of Project Z rates then in effect to the flat-rate water bill;

c. Users of water taken from a private water source or public stream — by applying the Sewage Agency's schedule of Project Z rates then in effect to the quantity of water used as estimated by the Sewage Agency; provided, however, that if any such water user or the Borough shall at his or its own expense install and maintain in good operating condition a meter or other measuring device of a type approved by the Sewage Agency, the amount payable by the Borough for sewage service to such water user shall be based upon the quantity of water used as so measured.

If the Borough or other water supplying agency does not make available promptly to the Sewage Agency the necessary data for computing the sewage service charge of any water user, such water user shall be deemed to be a flat-rate water user, and the sewage service charge for such water user shall be calculated in the same manner as for flat-rate water users, based upon the estimated flat-rate water bill such water user would have to pay.

There shall be no free services rendered by the Sewage Disposal System, and the Borough's obligation under this agreement shall include payment for sewage service provided to the Borough itself and to all public corporations, all charitable or non-profit institutions and all school districts and other political subdivisions, in accordance with the established schedule of sewage service charges.

If any substantial portion of the water used regularly on any lot or par-

cel of land used for commercial, manufacturing or industrial purposes does not enter the Borough's sewerage system, the Borough may secure a reduction in the amount of the sewage service charges to be paid for sewage service to such water user, subject to the established minimum charges, if such water user or the Borough shall, at his or its own expense and subject to such regulations as may be prescribed by the Sewage Agency, install and maintain a separate meter or other measuring device approved by the Sewage Agency for measuring the water so used, in which event the quantity of water so used shall thereafter be excluded in computing the sewage service charges to be paid by the Borough for sewage service to such water user.

In cases where the character of sewage or industrial wastes from any commercial, manufacturing or industrial plant, building or premises is such that it imposes a burden upon the Sewage Disposal System in addition to the burden imposed by the average sewage, such additional charge shall be made therefor as the Sewage Agency shall deem to be fair and equitable to meet the additional cost of collecting, transporting, treating and disposing of such sewage or wastes; or the Sewage Agency may, if it deems it advisable, require the owner, tenant or occupant of such commercial, manufacturing or industrial plant, building or premises to pre-treat such sewage or wastes in such manner as shall be specified by the Sewage Agency before discharging such sewage or wastes into the Borough's sewerage system.

9. In order to enable the Sewage Agency to compute its sewage service charge based thereon, as provided in Paragraph 8 hereof, the Borough, so long as it operates its own waterworks system, shall furnish to the Sewage Agency, not later than the 15th day of the month following the month during which water bills are issued, a list or lists of all water meter readings and flat-rate water bills issued during the preceding calendar month, together with the basis for each flat-rate water user's water bill, and shall include therein the meter readings of meters installed by water users taking water from a private water source or public stream. The Sewage Agency will request similar information from the private water company, municipal authority or other agency

supplying water to any water users within the Borough. If by reason of failure to obtain such data promptly the Sewage Agency is compelled to treat any water users as though they were flat-rate water users, as further provided above in the said Paragraph 8, and in so doing is obligated to survey the premises of each such water user for the purpose of determining his or its flat-rate water status, the cost incurred by the Sewage Agency in making such survey or surveys shall be repaid to it by the Borough. The Borough authorizes the Sewage Agency to make such survey or surveys, and it is agreed that every water user, in accepting the Sewage Agency's service, authorizes the Sewage Agency to enter upon his or its premises for such purpose.

The Sewage Agency will reimburse the Borough and other water supplying agencies, on or before April first of each year, for the reasonable added clerical expense incurred by each of them during the previous calendar year in preparing the lists of metered water data and of flat-rate bills hereinabove referred to, but not for the cost of reading meters, excepting only the cost of reading such meters as may be installed by or for users of water who are not connected with their respective waterworks systems.

10. The Borough agrees that if the schedule of Project Z rates in effect at any time does not, or in the opinion of the Sewage Agency may not, yield sufficient revenue to meet the Sewage Agency's Project Z financial requirements, or if the Sewage Agency finds that such schedule has proved to be inequitable, the Sewage Agency shall have the right at any time and from time to time to revise and adjust its sewage service charges in such manner and to such extent as it may deem advisable.

At least sixty (60) days before any revised Project Z rates shall become effective, the Sewage Agency shall submit in writing to the Borough a statement setting forth the new schedule of sewage service charges and the reasons why it was found necessary or desirable to put them into effect. Such new schedule of charges shall go into effect at the time specified in said statement (not earlier, however, than sixty (60) days from the furnishing of such statement), unless suspended by a final decree of a

court of competent jurisdiction.

11. The Borough covenants to pay to the Sewage Agency the aggregate amount of all sewage service charges which are chargeable under Paragraphs 7-10 of this agreement for sewage service to its water users, in consideration of the performance by the Sewage Agency of the Borough's legal duty to avoid the pollution of the waters of the Commonwealth. The individual charges for sewage service to each water user shall be computed in the manner hereinbefore set forth, and all such individual bills shall be totaled. The aggregate amount thereof shall be billed quarterly to the Borough. The Borough covenants that it will pay each such quarterly aggregate amount, out of the Borough's current revenues as hereinafter provided, within sixty (60) days after the date of the bill therefor. The Sewage Agency will refund to the Borough, on or before April first of each year, as a credit for the saving in billing expense, a sum equal to the average cost per customer incurred by the Sewage Agency during the preceding calendar year for billing and collecting its charges in all municipalities served by it in which individual water users are billed separately by the Sewage Agency, multiplied by the average number of individual water user in the Borough.

12. If there exists any connection through which sewage or wastes emanating from any territory outside the corporate limits of the Borough enters the Borough's sewerage system and thence reaches the Sewage Agency's interceptor sewer, and if the municipality having jurisdiction over such territory has not executed a Municipal Agreement with the Sewage Agency, or does not execute a similar agreement, the Borough shall either promptly shut off or remove such connection or shall pay to the Sewage Agency, so long as such sewage continues to enter the Borough's sewerage system, the estimated cost of collecting, transporting, treating and disposing of such sewage, such estimated cost to be approximately the same as if the Borough were subject to the Sewage Agency's prevailing sewage service charges for sewage service to the water users within such territory.

13. The Borough shall annually provide in its budget for obtaining the

funds necessary to meet its obligations under this agreement. On or before October 1 of each year the Sewage Agency shall supply to the Borough's Council a written estimate of (a) the annual debt burden of the extra bonds for Monroeville plus (b) the total aggregate amount of all sewage service charges plus (c) the estimated amount (if any) due under Paragraph 12 of this agreement which the Borough will probably be required to pay to the Sewage Agency during the ensuing fiscal year. The Borough shall, by proper ordinance, promptly levy a special tax, impose a sewer rental or sewage charge, or provide for obtaining revenues in any other lawful manner, or resort to any two or more methods of securing the funds required under this agreement, in such manner as to assure that the Borough shall obtain or collect during the ensuing fiscal year a sum which, together with any unused moneys remaining from previous years, will be at least 120% of such estimated amount to become due under this agreement during such year. The revenues collected from such tax levy or from any other source so designated by the Borough, or from any combination thereof which the Borough may elect to employ, shall be deposited to the credit of a special fund to be designated "Sewage Fund," the moneys in which shall be used by the Borough to meet its obligations under this agreement and shall not be used for any other purpose whatever.

If the entire amount due the Sewage Agency under this agreement for any year is not paid out of the current revenues of the Borough for such year the balance thereof shall be paid out of the current revenues of succeeding years.

14. The Sewage Agency shall have the right to promulgate, issue, publish and enforce rules and regulations governing its activities and carrying into effect the provisions of this agreement. Such rules and regulations may include provisions prohibiting or regulating the discharge into the Borough's sewerage system of oils, acids and other substances which may be harmful to the Sewage Agency's sewers, pumping stations or other structures or which may interfere with the sewage treatment processes at the Sewage Agency's plant, and prohibiting the discharge into any Borough

sanitary sewer of surface or ground water.

The Borough may, in its own discretion and without let or hindrance from the Sewage Agency, permit the connection with any Borough sewer that discharges into a Sewage Agency interceptor sewer of any and all premises used wholly as private dwellings, but no permit shall be issued by the Borough for the connection with any such sewer of any premises used wholly or in part for commercial or industrial purposes unless the application for such permit shall first have been submitted to and been approved by the Sewage Agency.

The Borough recognizes that the carrying out by the Sewage Agency of its obligations under this agreement will enable the Borough to perform the duty imposed upon it by law to provide for the proper treatment and disposal of its sewage, and the Borough therefore agrees to exercise for the benefit of the Sewage Agency all rights and powers which it may possess to carry into effect the purposes and intent of this agreement. The Borough accordingly agrees, on request of the Sewage Agency, to enact an ordinance incorporating all or designated portions of the Sewage Agency's rules and regulations and providing appropriate penalties for the violation thereof, to amend such ordinance from time to time as requested by the Sewage Agency, and to enforce the provisions thereof fully and prosecute all violators thereof diligently.

15. This agreement shall become effective immediately, and shall remain in full force and effect until the date of expiration of the legal existence of the Sewage Agency or until the expiration of one calendar year following the payment in full of all bonds, notes and other obligations of the Sewage Agency, original and refunding, issued by it to finance the construction, replacement, maintenance and operation of the Sewage Disposal System and the Upper Allegheny System and additions thereto, whichever date shall be later

WITNESSETH:

Whereas, the First Session of the 84th Congress has appropriated a supplement to the General Health Grant and these funds may be used only for planning and operating the interstate poliomyelitis vaccine distribution system and for planning and conducting public poliomyelitis vaccination program; and

Whereas, the party of the first part has determined that it is necessary to adopt a coordinated, integrated, comprehensive program which would include a method of epidemiological analysis to carry out the provisions of this supplement to the General Health Fund; and

Whereas, a comprehensive program involves trained professional and technical personnel and statistical equipment which are not presently available to the

party of the first part in the City of Pittsburgh; and

Whereas, the party of the second part has or is able to make available the necessary physical facilities, trained professional and technical personnel in the City of Pittsburgh to administer and satisfy such a comprehensive program in the epidemiological analysis of the poliomyelitis vaccine program.

If such expenses are held improper the party of the second part shall immediately correct this expense and assume all payment thereof. These expenses shall be incurred within the budget allocation of \$12,000.

2. All personnel employed by the party of the second part pursuant to this agreement, shall be employed in

conformity with Pittsburgh Civil Service Rules and Regulations and established personnel practices.

4. The party of the second part shall submit to the Director of the Bureau of Communicable Disease Control quarterly reports setting forth progress, itemized expenses incurred, together with pertinent statistical information with reference to the epidemiological study.

5. The Director of the Bureau of Communicable Disease Control may from time to time direct that special information be submitted or request that modifications be adopted to the existing program, plan and/or budget. The party of the second part may from time to time suggest such modifications as may be necessary to the Director of the Bureau of Communicable Disease Control.

**A**N ORDINANCE—Authorizing and directing the Mayor and the Director of the Department of Public Works, for and in behalf of the City of Pittsburgh, to enter into an Agreement with The Baltimore and Ohio Railroad Company in Pennsylvania, a Pennsylvania corporation, and The Baltimore and Ohio Railroad Company, a Maryland corporation, to enable the Railroads to operate a rail-to-river terminal along the right bank of the Monongahela River at a point near Glenwood Bridge.

*The Council of the City of Pittsburgh hereby enacts as follows:*

Section 1. That the Mayor and the Director of the Department of Public Works be and they are hereby authorized and directed, for and in behalf of the City of Pittsburgh, to enter into an Agreement with The Baltimore and Ohio Railroad Company in Pennsylvania, a Pennsylvania corporation, and The Baltimore and Ohio Railroad Company, a Maryland corporation, to enable the Railroads to operate a rail-to-river terminal along the right bank of the Monongahela River at a point near Glenwood Bridge, in substantially the following form:

### THIS AGREEMENT

MADE the \_\_\_\_\_ day of \_\_\_\_\_, 1955, BY AND BETWEEN the CITY OF PITTSBURGH, a municipal corporation of the Commonwealth of Pennsylvania, hereinafter referred to as the "City," and THE BALTIMORE AND OHIO RAILROAD COMPANY IN PENNSYLVANIA, a Pennsylvania corporation, and THE BAL-

TIMORE AND OHIO RAILROAD COMPANY, a Maryland corporation, hereinafter referred to as the "Railroads."

WITNESSETH:

The Railroads are the owners of land in the Fifteenth Ward of the City of Pittsburgh, located on the right bank of the Monongahela River at a point near Glenwood Bridge and extending eastwardly, lying between Stations 7581 and 7620, as more fully shown on Plan No. 131-1, dated August 29, 1930, revised to December 20, 1932, and entitled "General Plan, Rail-River Facilities, Glenwood, Pa.", which is on file with the Director of the department of Public Works of the City, hereinafter referred to as Exhibit "A," subject to the right-of-way of a thirty-three (33) foot public highway known as Braddock's Field Plank Road (or Second Avenue), title to which is vested in the City.

The Railroads have constructed, maintain and now operate a rail-to-river terminal on part of the aforementioned land belonging to them, but due to the uncertain location of Braddock's Field Plank Road (Second Avenue) it is probable that railroad tracks serving said terminal as well as other portions of the terminal encroach upon said roadway of the City at certain points.

It is the mutual desire of the parties to this Agreement that the rights of the City in Braddock's Field Plank Road (Second Avenue) be recognized and the needs of the public for a highway at this point preserved.

NOW, THEREFORE, IN CONSIDERATION OF THE FOREGOING AND THE MUTUAL COVENANTS HEREIN CONTAINED, THE PARTIES HERETO MUTUALLY COVENANT AND AGREE, WITH INTENT TO BE LEGALLY BOUND, AS FOLLOWS:

1. The Railroads recognize and acknowledge the existence of a public highway thirty-three (33) feet in width, known as Braddock's Field Plank Road (Second Avenue), between Stations 7581 and 7620, which is located approximately as shown on Exhibit "A."

2. The City grants and conveys to the Railroads for a period of twenty-five (25) years an easement or right-of-way over Braddock's Field Plank Road (Sec-

ond Avenue), between Stations 7581 and 7620, as shown on Exhibit "A," for the operation and maintenance of two (2) railroad tracks and such other parts of a rail-to-river terminal as are or may be located by the Railroads wholly or in part within the limits of said Road. The City also grants and conveys for a like period to the Railroads the right to maintain and operate said terminal including the tracks.

3. The Railroads will protect the City and save it harmless from any and all damage and claims of damage caused by the operations of the Railroads or other portions of the terminal within the limits of said Road.

This Agreement is entered into by the City pursuant to Ordinance No. , approved

This Agreement is entered into by the Railroads pursuant to the action of the proper officers of the Railroads.

This Agreement shall inure to the benefit of and be binding upon the successors and assigns and affiliated companies of the Railroads and shall be effective when duly executed by the proper officers of the City and the Railroads.

In Witness Whereof, the parties hereto have hereunto affixed their common and corporate seals, duly attested by their proper officers, the day and year first above written.

## No. 187

Whereas, large areas of the municipalities situated in the lower part of the watershed of Turtle Creek, in Allegheny County, Pennsylvania, have for many years suffered extensive physical damage, irreparable financial hardships, and in-

tolerable human suffering and loss of life all caused by the periodic flooding of Turtle Creek and its tributary, Thompson Run:

Whereas, the latest flood, which occurred on 15 - 16 October 1954,, besides causing extensive general loss to residential and commercial areas, also resulted in damage to, the loss of man-hours of employment in, and the interruption of national defense production at the two principal industries in the area — Westinghouse Electric Corporation and Westinghouse Air Brake Company — which aggregated many millions of dollars in value and as a consequence of which the communities face a possible curtailment of local primary employment opportunities unless prompt steps are taken to prevent a recurrence of this flooding:

Whereas, the Pittsburgh Regional Planning Association and the Allegheny Conference on Community Development have recently completed a comprehensive long-range plan for the revitalization of the Lower Turtle Creek Valley which plan places the matter of flood prevention as basic to the future of the area:

And Whereas, an immediate restudy of the entire situation at once by the Corps of Engineers, U. S. Army, is imperative before the proper steps to correct this flooding can be determined, the said study is estimated by the U. S. Engineers to cost approximately \$61,500 and for which purpose no funds are presently available;

Now, Therefore, Be It Resolved By The Mayor and the Council of the City of Pittsburgh, Allegheny County, Pennsylvania, and it is hereby resolved by and with the authority of the same, that, acting on behalf of the residents and industrial and commercial interests of the municipality, it does hereby request of United States Senators Martin and Duff, Congressmen Buchanan, Corbett, Eberharter, and Fulton, and all other Pennsylvania Congressmen that they do everything within their power to assure that the sum of \$61,500 is included in the national budget for the fiscal year of 1956 for the required restudy of the Turtle Creek flood problem and that the Corps of Engineers, U. S. Army, also be provided with all necessary authorizations for making such a restudy as an item of the highest priority.

## No. 504

Dr. James P. Kerr, claimed by death at the age of 91, was born in Beaver County,

Pennsylvania, May 6, 1864. He was the son of a physician in whose footsteps he followed; and after graduating from grade and high schools in Beaver, he entered the School of Medicine at the University of Maryland, graduating in 1888. A year after his graduation, he came to Pittsburgh's South Side, where he was engaged in active practice for nearly 60 years.

He was a distinguished surgeon, a good husband and father, and a courageous man. He was well and favorably known to the people of his adopted city, where he served in several public offices — first, as a member of the Council, then as its president and later as City Controller.

In 1904, when Saint Joseph's Hospital was organized, he became its chief surgeon and served in that capacity and a president of the staff for more than 40 years.

In 1911 he was appointed by the then Governor of Pennsylvania, the Honorable John K. Tener, to serve as one of the first members of the Council of Nine. He continued in that capacity until 1918 when he resigned to enter the United States Army in World War I as a major in the medical corps. He was promoted to Lieutenant-Colonel in charge of Base Hospital No. 77 at Beaune, France.

In 1930, on the death of the City Controller, Daniel Winters, he was appointed to succeed him. He was elected in 1931 and re-elected in 1935. In this position he became known as the "watch-dog of the treasury." He was a staunch defender of the city's credit and would not allow loose charges concerning the city's finances to stand unchallenged.

Though a man of strong convictions, he had a fine sympathy for the hardships of others. His patients remained his lifelong friends, and in public life his associates and the public never ceased to respect his high character. He laid down hard rules for his own conduct as a public servant and required that his subordinates follow rigid standards. He could be a strict disciplinarian when he felt his official duties demanded it.

It is given to few to live so long and to serve mankind so faithfully and in so many capacities. Pittsburgh has benefited by his life and contributions to the community's welfare.

Therefore, be it

Resolved, That the Mayor and the Council of the City of Pittsburgh express to the family of the late Dr. James P. Kerr their deep and heartfelt sympathy on the loss of their illustrious father, a good citizen and eminent surgeon and physician, and sincerely mourn his passing; and be it further
